

NEW PRODUCT RELEASE!

The **Sapphire Diode 755** brings the Alexandrite wavelength and the latest Diode Technology together, combining the efficacy of the high melanin absorption of the Alexandrite with all the benefits of the Diode.

Thanks to the highly selective 755nm wavelength, even thinner and lighter hairs can be treated with the best results.

The proven reliability of the SLD Laser Technology assures the optimisation of the treatment's procedure (no time consuming heating up) and no running costs.
